## CONSERVATIVE REGIME IN BRITAIN

### NAMED TO FORM GERMAN CABINET

Wilhelm Cuno, Director-General of Hamburg-American Steamship Line, to Reorganize Shattered Ministry

### TO HAVE NO OUTSPOKEN PARTISAN COMPLEXION

Novice in Parliamentary Affairs Has Advantage of Being Unencumbered by Party Affiliations

BERLIN, Nov. 16.—Herr Wilhelm Cuno, director-general of the Hamburg-American Steamship Line, was today named to form a new cabinet, and immediately Herr Cuno got into formal touch with the party leaders to ascertain their attitude towards supporting "a cabinet of work" which he purposes to organize. This will comprise members of the middle and Socialist parties, but, according to Cuno, will not have an outspoken partisan complexion. After this advanced survey, he informed President Ebert his readiness to accept the chancellorship, and then left for Hamburg to adjust affairs in connection with his position on the Hamburg-American Line.

Cordially Received  
On his return to Berlin tomorrow he will resume negotiations with the Reichstag leaders. Although the reception accorded him in Reichstag circles thus far has been cordial, it is not believed he will succeed definitely in constituting the new ministry before Monday.

Neutral Public Leader  
Herr Cuno is an old friend of President Ebert and was first in line among the so-called neutral public leaders whom the president had in view as meeting his conception of a leader which would undertake the nation's economic reconstruction along broad and non-partisan lines. The opinion is held in Reichstag circles that Herr Cuno, who is wholly a novice in parliamentary affairs, is handicapped by party affiliations and is handicapped by the advantage of being unencumbered by party affiliations and is handicapped by the advantage of being unencumbered by party affiliations.

### SEND CABLE TO POPE FOR HUNGER STRIKER

Refusal of Sacrament Leaves No Alternative But Physical Force, Says U.S. Synthesizer

WASHINGTON, Nov. 16.—John F. Flannery, president of the American Association for the recognition of the Irish republic, sent a cable message to Pope Pius at Rome tonight in reference to Miss Mary MacSwiney, who is a prisoner of the Irish Free State and on a hunger strike in a Dublin prison. The message said: "Liberty loving people throughout the world view with consternation and horror your permitting Irish clergy to refuse sacrament to Mary MacSwiney, thus outlawing to the world means of moral force and leaving no alternative except dependence solely on physical force."

### PREMIER COWED ITALIAN HOUSE

Mussolini's First Appearance in Parliament Characterized by Bold Action and Threatening Language

FASCIST LEADER TO ENSURE LAW AND ORDER  
He Declares in Message That a Majority in the House Will Not Be Necessary for His Administration

ROME, Nov. 16.—Benito Mussolini, in a dramatic first appearance before parliament as premier, today announced his foreign and internal policy and warned his adversaries that the Fascist Government had come to stay. He affirmed its strength to enforce law and order against one and all, even against an illegal coup by his own followers, and demanded full powers and full responsibilities.

"The Fascist leader proclaimed a policy of action, not words. He himself set an example, for he spoke for only half an hour, and was frequently applauded and cheered."

Socialistic Element Subdued  
The Socialists and Communists, numbering 118, who have greeted every succeeding government with violent and noisy demonstrations of opposition, sat in the chamber today silent and subdued.

Old leaders, like Giolitti, Orlando, Salandra, Facta and Sonnino saw their powers wrenched from them. They were relegated to second place without uttering a single objection, and some of them were among the hundreds who congratulated Mussolini as he concluded.

Interrupter Cowed  
The only attempt at interruption was made by Deputy Medagliani, Socialist, who, when Mussolini threatened dissolution, shouted somewhat timidly: "Long live the parliament."

The leader of the Fascists merely glared at him, while the right and centre sections cheered.

There are many who think that the premier will force the chamber to a vote as soon as the minister of the treasury, Professor Tanagra, has developed the details of the fiscal and bureaucratic reforms on the Fascist programme.

Cheers Greeted Premier  
The premier's entrance into the crowded chamber was hailed with cheers.

The points of his speech meeting with special approval were his declaration that he did not need a majority in parliament; his tribute to the king; his reference to the army, and insistence upon order and tranquility in the country.

The premier then went to the Senate and delivered the same speech, being greeted with no less enthusiasm.

### MR. H. G. WELLS WILL REMAIN IN SUSPENSE

LONDON, Nov. 16.—The result of the contest for London University, where H. G. Wells was a candidate, may not be announced for a day or two, as university voting is conducted by mail, extending over a week.

Oxford University adhered to its traditions, returning two Conservatives, Lord Hugh Cecil and Sir Charles Oman, noted historian, and Oxford's professor of modern history. The university rejected the Liberal candidate, Gilbert Murray, Oxford's professor of Greek.

### ONE COMMUNIST HAS SEAT IN PARLIAMENT

Mr. J. T. Walton Newbold, who was returned for the Motherwell division of Lanarkshire, was defeated, and none of the Labor voters were officially described as a Communist.

### CITY TO PAY FOR ALDERMEN'S DEFENCE

Mayor Says That, Barring Legal Difficulties, Taxpayers Will Pay Defendants' Costs

Mayor William Marchant, one of the four defendants in the Stansfeld cheque litigation, announced yesterday that the city would pay the fees of the defence lawyers.

"It depends on the result of an examination of the legal phases of the case by City Solicitor Pringle," said the Mayor. "But we are practically assured that it will be possible for the city to pay the charges, instead of the defendants as individuals."

Mr. Marchant said he had placed the whole matter in the hands of Mr. Pringle, and that, while the city solicitor had been busy with private bill affairs, a report would probably be made this week.

"Our contention is that we were sued on our corporate capacity, and for that reason the city as a corporation should pay the defendants' costs," said the Mayor. "Our only regret is that this whole case was not settled as a civil case. We would not have objected to that course, but being taken into the police court to answer a criminal charge, dismissed in a civil case would have meant that the prosecution would have had to pay our costs in addition to its own. In spite of the fact that the charges against us were thrown out, we have got to pay."

The Mayor said that about \$200 was involved. The lawyers' fees are the only items in the bill that must be met by the defendants.

### LIBERAL-CONSERVATIVE RECEPTION TONIGHT

Provincial Members Will Be Guests of Honor in Conservative Club Rooms, Campbell Block

Final touches in decorative effects were made by members of the Victoria Liberal-Conservative Association last night in their clubrooms, Campbell Building, where tonight a big reception will be held for Provincial members and their wives and all other Liberal-Conservatives of Victoria. No effort has been spared to make the spacious clubrooms as attractive as possible, and no effort will be missed in making the reception a big success. A splendid programme of entertainment has been arranged, and several prominent members of the Liberal-Conservative party will deliver addresses. After the programme has been concluded the floor will be given over for dancing. The following artists have consented to take part: Vocalists, Mrs. Stokes, Miss McDonald, Miss Norma Jones, Mrs. Jessie Longfield, Miss Starr, Mr. Percy Edmonds, Mr. J. O. Dunford; Spanish dancers, Miss Brown and Miss Elora; comedians, Ernie Emmott and George Ingledew. Refreshments will be served.

### ASKS THAT EGYPT BE GIVEN INDEPENDENCE

UNOFFICIAL DELEGATION WILL PLEAD DEMANDS BEFORE PEACE CONFERENCE IN SWITZERLAND

LAUSANNE, Nov. 16.—Real independence for Egypt and the Sudan, with the evacuation of the British troops and no special privileges for Great Britain, is the demand of the Egyptian people which will be placed before the Lausanne peace conference, Hamid Pasha, head of the unofficial Egyptian delegation, told the Associated Press today. His statement revealed the fact that Egypt, if the Egyptians have their way, will form one of the disputing problems of the conference. Hamid said he hoped America would stand by Egypt in her just demands for freedom.

Leader of Opposition Charges That if Government's Position Be Correct It Has Nothing to Lose by Production

IN the Legislature yesterday the Government made it very plain that what is designated as the special report of Col. Ross Napier on the conduct of liquor affairs will not be laid before the Private Bills Committee. The Premier said there was no report, but a series of letters, but he moved that any report Col. Napier made should not be put before the committee because the House had not so directed.

The opposition leader, Mr. Bowser, in characteristic fashion, forcibly Continued on Page 11

### DELAYS BILL A WEEK

CHIROPRATIC MEASURE STANDS OVER ON TECHNICALITY

Subject Which Aroused Keen Interest Sidetracked—Sponsor Asks for Select Committee

By the simple expedient of interposing House rules the chiropractic bill, one upon which opposing forces have been gathering in the city for the past two days in what has proved, undoubtedly, one of the greatest lobbies of recent sessions, has been stood over for a week. The supporters of the bill to give chiropractors the right to carry on practice legitimately under somewhat similar conditions to the general medical practitioners have been very active. On the other hand, the medical men of the recognized school have been carrying on a very determined lobby against the bill.

The bill, designed to grant chiropractors possessing certificates of qualification from any recognized school of chiropractic, the right to carry on their profession in the Province with the same safeguards guaranteed to the ordinary medical practitioners, came up for its second reading in the Legislature yesterday afternoon.

Mr. Neelands Moves  
To Mr. R. H. Neelands, Labor member for South Vancouver, fell the duty of moving the second reading. Mr. Neelands had little to say for or against the measure. He contented himself with the suggestion that the measure be submitted to a select (Continued on Page 11)

### NEW LORD ADVOCATE FAILS TO WIN SEAT

Mr. Lloyd George's Secretary Elected Former Postmaster-General Defeated at Bedford

LONDON, Nov. 16.—Mr. G. H. Shakespear, the late secretary for Mr. Lloyd George, was elected on the National Liberal ticket for Wallingborough. Mr. William Watson, Lord Advocate in the present Cabinet, was defeated for the Galloway district by the Liberal, Major C. R. Dudgeon.

Mr. R. McNeill, the Conservative Under-Secretary for Foreign Affairs, won the Canterbury constituency.

Mr. Wormsley Gore, Conservative, Under-Secretary for the Colonies, won his seat for the Stafford division of Staffordshire.

Mr. F. G. Kallaway, National Liberal, former Postmaster-General, was badly defeated in Bedford.

For the two seats from the combined English Universities, Sir Martin Conway, Conservative, and Mr. Hon. A. L. Fisher, Liberal, were elected.

UNOFFICIAL DELEGATION WILL PLEAD DEMANDS BEFORE PEACE CONFERENCE IN SWITZERLAND

LAUSANNE, Nov. 16.—Real independence for Egypt and the Sudan, with the evacuation of the British troops and no special privileges for Great Britain, is the demand of the Egyptian people which will be placed before the Lausanne peace conference, Hamid Pasha, head of the unofficial Egyptian delegation, told the Associated Press today. Labor Party Second With 141 Candidates Elected to Parliament With Only Eight Constituencies to Be Heard From—Asquithians Get 62 Seats, Georgians 44

## MORE THAN A THIRD VOTED CONSERVATIVE

Only Combination With Labor Party Can Prevent Either Mr. Lloyd George or Mr. Asquith Appearing in Other Role Than That of Futile Critic in the New British Parliament

LONDON, Nov. 16.—The Bonar Law Government is likely to go on with a policy so close to that of the Coalition Government that little chance will be given Lloyd George to make attacks. Labor's gain constitutes a new menace, and unless both Lloyd George and Asquith ultimately decide to join forces with the Conservatives against Labor, it seems that there is nothing left for either but the role of a sort of futile critic of both sides, unable to influence the decisions of either.

### SALMON EXPORT LOW

CANADA'S SHIPMENTS CUT IN HALF DURING OCTOBER

Little Variation in Cheese and Newspaper Exports for Two Months Compared With Last Year

OTTAWA, Nov. 16.—Canada's exports of canned salmon during the month of October just closed showed almost a 50 per cent decrease as compared with shipments of October, 1921, according to figures issued tonight by the Dominion Bureau of Statistics. The exports last month were 58,082 cwt., valued at \$711,994, as against 107,108 cwt., valued at \$1,491,624 in October last year.

September Higher  
September, 1922, exports were more than 20,000 cwt. higher than September, 1921, the figures for September, 1922, being 78,349 cwt., valued at \$1,015,948, against 58,082 cwt., valued at \$711,994 in September last year. The exports last month were 58,082 cwt., valued at \$711,994, as against 107,108 cwt., valued at \$1,491,624 in October last year.

### TURNED CONSERVATIVE

A careful analysis of the results seems to indicate that it was material considerations that influenced voters. The Midlands and Lancashire, where Mr. Lloyd George had counted on considerable support, turned Conservative as Mr. Bonar Law's and Lord Derby's assurances that they would not for the present alter the free trade policy of the country.

In Wales and Scotland, Labor gained through the general disinclination, unemployment and depression in the large mining and industrial districts.

### FOURTEEN MILLION VOTED

One of the most important factors in the Labor gain, however, was the apathy of the voters. Out of 15,000,000 voters, only about 14,000,000 went to the polls, of which the Conservatives drew 5,840,000; Labor, 4,250,000; Liberals, 1,750,000; Georgians, 1,300,000 approximately.

Had the proportion of Labor gains at the expense of the Conservatives, as indicated last night, been maintained, Mr. Bonar Law would not have had a majority at all.

### LEADERS' COMMENTS

Following are the comments made by the leading figures in yesterday's general elections:

Prime Minister Bonar Law: "I am greatly satisfied with the results of the elections, demonstrating that the country is ready for a Conservative regime."

Right Hon. David Lloyd George: "The result coincides with the anticipations of my headquarters. I am quite satisfied."

Right Hon. H. H. Asquith: "The enormous Labor poll and the tremendous turnover in Scotland are a widespread unemployment, and the consequent acute distress, and the House of Lords' decision regarding the Rent Restriction Act."

Frank Hodges, the miners' leader: "I am greatly pleased with the miners' poll as demonstrating allegiance to the Labor party."

### LIQUOR ACCOUNTS

Public Accounts Committee of House Has Head of Board Before It—Interesting Details

The cost of enforcing the Liquor Control Act since it became operative in June, 1921, has amounted to \$105,987, according to the evidence given by Mr. Archibald Johnson, chairman of the board, to the Public Accounts Committee yesterday morning. On the other hand, the receipts from tax on imported liquor, confiscations, fines and distrainted bull amounted to \$237,587 at the end of September, thus leaving a surplus of \$131,600 to the good.

Profits derived from the sale of liquor not yet distributed amount to \$1,075,356. Just when another division is made between the Government and municipalities, Mr. Johnson was unable to tell the committee. The grand total of profits to date, he stated, was \$3,459,909.

### NEW MEMBERS WILL BE SWORN IN NEXT WEEK

LONDON, Nov. 16.—The new House of Commons will meet Monday afternoon to elect the Speaker, and it is considered certain that the late Speaker, Rt. Hon. John Henry Whitley, will be re-elected.

Tuesday and Wednesday will be occupied in swearing in the new members, and the formal opening of Parliament by the King will take place on Thursday.

**IMMIGRATION NEEDS**

**LORD SHAUGHNESSY'S VIEWS PRESENTED AT LUNCHEON**

Former Head of C.P.R. Believes That Canada Has Been Missing Her Opportunities

MONTREAL, Nov. 16.—Addressing the Kiwanis Club at its luncheon today, Lord Shaughnessy, speaking on "Immigration Selected and Directed," declared that Canada had but a sparse population to meet its enormous liabilities. An immediate influx of desirable settlers was imperative in the interests of the Dominion's prosperity and happiness, and that the future policy of the Canadian Government should be to paint Canada in attractive colors, not only to the immigrant element of the United States and Great Britain, but to the people of many of the continental countries as well.

Lord Shaughnessy charged that practically nothing had been done during the past eight years to attract settlers to the country, and that much might have been accomplished had it not been for unwise immigration laws, the practical abandonment of publicity work and the withdrawal of representative agents.

Hiding Our Light  
"We have been hiding our light under a bushel," he affirmed, "with the result that we have lost to other countries thousands of excellent settlers who should have come to us."

Lord Shaughnessy spoke pessimistically of the period between 1911 and 1921, declaring that vital statistics showed there had been a natural increase of 1,354,464 and that 1,975,000 had immigrated from other countries. Had Canada received no immigrants at all, the speaker said, the natural increase should have given a population of 9,000,000, so that in these ten years this country apparently not only lost the equivalent of all the immigrants who came in, but did not even maintain, according to the census returns, the increase due to natural accretion, after making full allowance for war losses.

When the fact is taken into account that the national debt, which was \$255,000,000 in 1914, has reached the staggering sum of \$1,340,000,000, approximately the equivalent of \$76 per capita of the population, we must realize, said Lord Shaughnessy, that the burden is too great for a population of 8,700,000 people, and that if we are to carry on without serious inconvenience, we must secure with all possible speed a very large addition to our population and to our productivity.

Britain Can Supply  
Continuing, the speaker said: "Notwithstanding the war, Great Britain can furnish a very large number of settlers of the right type, and for the first time, I think, in history the British Government is prepared to lend its assistance financially and otherwise to help these people to become established in one of the Dominions."

Lord Shaughnessy declared that there should be amendments to our immigration laws and regulations, and the barrier against foreign immigrants removed. There should be urged upon the Government the appointment without delay of a thoroughly capable enterprising minister of immigration and colonization. This minister should have a staff of assistants in the United States, in Great Britain and on the continent. He should also have an intelligent advertising and publicity organization, through which an invitation will be extended to every colonist of the class we need to give consideration to the opportunities offered by Canada for settlement. The speaker thought that in this the Government would have undoubtedly the active co-operation of the Canadian Pacific Railway and other transportation companies.

Intermixture Needed  
Lord Shaughnessy did not think that immigration should be confined to the people of British origin and he was of the opinion that an intermixture of new blood was what thought would do the people of Canada no harm. Each nationality furnishes some attribute the other lacks, he stated. "We must get settlers where we can without exposing the country to the dangers of a defective and disastrous melting pot."

Lord Shaughnessy concluded: "Reflected and directed immigration, the slogan of the Kiwanis, described merely and clearly what would seem to be necessary. Selection will insure the right class of settlers and direction will not only lessen the worry and uncertainty of the newly-landed immigrant, but will be reasonable surety that he will be properly allocated."

**FOR DEVELOPMENT OF MINERAL RESOURCES**

Research Work to Discover New Methods of Treating Primary Ore Is Necessary

VANCOUVER, Nov. 16.—Research work to discover new methods of treating the primary ore of this country, further and systematic study of the geological formations of the province and sympathetic appreciation of the natural difficulties in imposing taxation, are essentials to the development of the mineral resources of British Columbia, Professor S. J. Schofield, of the University of British Columbia, told the members of the Canadian Institute of Mining and Metallurgy at the morning session of the annual Western meeting today.

Little Progress  
Mineral production in the province had been practically stationary during the past decade, he declared, and quoted figures to show that the annual value between 1906 and 1909 had averaged approximately \$13,000,000, while between 1910 and 1919 the average had been but \$19,203,620. While the actual returns had been higher, he said, the higher prices and forced production during the period of the war had been responsible for this condition. A close study of the figures would reveal but little progress had been made in the extent of the mining in the province for twenty years.

"I believe that the Government should thoroughly investigate the subject," he stated, "and seek to devise methods of selling claims. When there is a market for the properties, the hills will be full of prospectors."

**MORE DIRECT TRADE FROM AUSTRALASIA**

Canadian Minister of Trade and Commerce in Vancouver Tells of Effect on New U.S. Tariff

VANCOUVER, B.C., Nov. 16.—The Province carries the following special cable from Sydney, Australia:

Hon. J. A. Robb, Canadian Minister of Trade and Commerce, was given a warm official reception here. He was interviewed on the subject of what would be the effect of the American tariff in stimulating direct trade between Canada and Australia. In the past, he said, much wool had been imported into Canada, undoubtedly of Australian origin, but it had lost its identity by being purchased in London or Boston. Last year Canada had imported \$6,000,000 worth of wool.

"With the rates of the new American tariff in effect," said Mr. Robb, "direct shipment from Australia into Canada should result, because if the product now is to enter Canada free of duty if imported direct it is obvious that a great saving will be made by sending shipments from Sydney to the British Columbia coast."

Australians Appreciative  
"There is also a good market in Canada for Australian fruits," continued the Canadian Minister. "A recent shipment of Australian oranges has been favorably commented upon." When Mr. Robb was entertained at a luncheon of the Sydney Chamber of Commerce, speakers emphasized the importance of Mr. Robb's visit and their appreciation that Canada had sent a minister to negotiate a trade arrangement.

Mr. Robb, in his address, commented on the need of migration of British surplus population to other parts of the Empire. If the United States had room for 110,000,000, he said, Australia and Canada should be able eventually to absorb quite as many.

Mr. Robb will go to Melbourne on Sunday.

**BELIEVES AMERICA WILL CLEAR JAPANESE**

Time Is Not Far Distant When They Will Be Driven From Country, Says Japan Times

TOKIO, Nov. 16.—Continued moderation marks the Japanese press comment on the decision of the United States Supreme Court holding Japanese ineligible for naturalization as American citizens. In some circles here, however, it is believed that the underlying feeling is more bitter. The Yozoro Choho, an independent daily, predicts that the decision will impair friendly relations between the two countries.

The Japan Times, an English language newspaper now owned and edited by Japanese, declares that the time is not far distant when all Japanese will be driven out of America. The Osaka Nichi Nichi Shimbun, the only morning paper commenting on the decision, says it is commendable for America to discriminate in the matter of naturalization by reason of color. Citizenship ought to be granted the subjects of any cultured nation, it is contended. "However," continues the paper, "naturalization is the thing to be granted, not forced. Therefore we are not particularly disappointed. We feel assured that the time will come when Americans will have a better conception of the Japanese."

**CANADA AMONG FIRST INDUSTRIAL CENTRES**

OTTAWA, Nov. 16.—Striking recognition of the industrial importance of Canada is contained in a recent decision of the court of the League of Nations, according to information reaching the Government here.

This decision was rendered under the authority of Article 233 of the Treaty of Peace, which declared that eight of the twelve governments seat on the governing body of the international labor office should be held by countries of "the chief industrial importance." and that any question arising as to which were the countries of the chief industrial importance should be decided by the League of Nations council. Canada was ranked as one of the eight countries of chief industrial importance, with Germany, Belgium, France, Great Britain, India, Italy and Japan.

## BILL LICENSING INSURANCE AGENTS

LIBERAL MEMBER FOR PRINCE GEORGE OPPOSES

Mr. H. G. Perry says Victoria and Vancouver interested parties alone endorse it

In the Legislature yesterday afternoon the bill to license insurance agents came in for some adverse criticism at the hands of Mr. H. G. Perry, the Liberal member for Prince George. He contended that the measure represented the work of Victoria and Vancouver insurance companies and was not desired by the agents outside these cities.

Hon. Mr. Manson explained the bill was introduced last year, but was allowed to drop. Since then the necessity of such a measure had been urged upon the Government.

Seeks Its Origin

Major Burde—By whom?

Major Burde—Where from?

Hon. Mr. Manson stated that a very representative deputation of agents had waited upon him, particularly the Lower Mainland and Vancouver Island. He had suggested that some would have liked to hear from some of the agents in the Interior. He stated that both life and fire insurance concerns had represented to him that there should be some supervision of the work of agents; that there were men who merely took insurance as a side line and there was danger to the insured from the operations of such men.

Policies Are Complicated

"Life insurance policies are, we know, very complicated," said the Attorney-General, who held that when a man desired to be insured he wanted to know all the terms and conditions of his policy and their meaning; hence the advisability of having only qualified men as agents.

"I confess, though I am a lawyer, that there are to me, many difficulties in understanding the terms of insurance policies. The average man may take out a policy and find later that he got something he did not bargain for. The same thing is true to an even greater extent in the case of fire insurance," said the Attorney-General, who stated that the bill would not cast any additional financial expense on the Province as the insurance agents had agreed that the superintendent of insurance should supervise the operation of the bill, and the insurance agents would pay through the proposed system of license fees.

Bill Not Wanted

Mr. H. G. Perry, Liberal member for Prince George, declared that he had received representations from the North, and even from the Lower Mainland, indicating the bill was not wanted, and he expressed the view that it was not in the interests of the agents in small communities. He referred to the conditions under which the country agents operate and he pointed out that country agents would be forced to pay not alone the fee for life insurance, but for all other any act were necessary. He said he was making uniformity in commissions paid.

Mr. Perry stated he had more to say on the matter, and he moved the adjournment of the debate.

## CITY INITIATES NEW SIX-DAY RELIEF PLAN

High School Grading Will Absorb Some Labor—Destitute Have Chance to Obtain Fuel

Destitute men with families to support, applying to the city for work this winter, will be given jobs for six days at a time. The three-day relief scheme of last year will be abandoned. Mayor Marchant announced yesterday.

"There was a great deal of objection to the three-day system last year," said the Mayor. "We think it will be more satisfactory if we give work for a week at a time when we can give it at all."

The men will be put at work on the High School grounds, which are being graded. The job, representing a cost of about \$7,500, may not last very long, but it will be a temporary relief, as about twelve men will be required daily for two or three weeks. After that may come the rock-pile. The Mayor has arranged for the use of building refuse at the Jubilee Hospital grounds as fuel for destitute families. In the erection of the new wing of the hospital odd lengths of lumber, nails and other material suitable for fuel have accumulated. Men needing this fuel will be given opportunity of loading city dump

wagons with it and carting it to their homes.

Applications for employment continue to reach the City Hall, but the present policy will not be departed from and the names are being merely filed, the Friendly Help Association taking charge of cases where families are without food and clothing.

## HOLD OVER SECOND READINGS OF BILLS

Member for Alberni Wants to Show Lawyers Many Things Overlooked

"There are a lot of things in this bill which the lawyers have not, apparently, seen," remarked Richard J. Burde, member for Alberni, in moving the adjournment of the debate on the second reading of the bill respecting the legitimation of infants by subsequent marriage in the Legislature yesterday.

The Attorney-General briefly explained the provisions of the measure, and Mr. J. W. de la Parris, ex-Attorney-General, pointed out that the bill was virtually the same as a measure brought down in 1920, and now law. He had been asked why a new bill should be brought down.

Attorney-General Manson, in explanation, said that it appeared that there were reasons for bringing the legislation in line with that in other provinces. He explained some differences that were made by the new bill.

In moving the second reading of the bill to amend the Fire Marshals Act, Attorney-General Manson, who explained that the bill provided that regulations made by the Fire Marshal, where there are no organized fire departments, should prevail. Under the original act the Fire Marshal's regulations prevailed everywhere, but with many municipalities it was deemed not necessary to bring them within the provisions of the measure.

Mr. Bowser adjourned the debate on the bill.

## CITY MAY PROFIT BY BRIDGE PLANT SALE

Equipment Purchased at Rock-Bottom Price May Be Sold at Top Figures, Engineer Believes

Plant and equipment used by the city in the construction of the John Street Bridge will probably be sold at prices representing a profit to the city, City Engineer F. M. Preston stated yesterday.

Mr. Preston stated that the actual value of the equipment, according to an appraisal made by the Canadian Fairbanks-Morse company, is about \$45,000. Practically everything that was purchased by the city for bridge work is now being used and will be retained until the last contract is terminated, unless it should be found that certain articles no longer required may be disposed of on favorable terms.

"All our plant was purchased at rock-bottom prices, at a time when the market for construction machinery and gear was abnormally low," said Mr. Preston. "People who say that the city paid top prices for its bridge equipment and will have to sell out at wreck prices, if at all, are not knowing what they are talking about."

"As a matter of fact, several units of equipment could have been resold by the city several times at a profit, but we needed them for our own use. The bridge should be finished by the end of next May or June, and present indications are that the market, judged by seasonal requirements, will then be at its height. We bought our equipment when most of it was standing idle and contractors were glad to get rid of it. We will sell it back when it is badly needed."

## COURT DISMISSES CHARGE

But Warns Ah Lee Midnight Excursions Are Very Suspicious

The charge against Ah Lee, alias Fong, of disturbing the peace of Vancouver, and housebreakers by prowling there at midnight, was dismissed by Magistrate Jay in the police court yesterday; but the discharge of the Chinaman was accompanied by the warning from the bench that suspicion attached to the defendant's conduct.

Thomas Hall testified that two young ladies living near him complained of the actions of a man who had peeped in at their window. The officer had found the accused in that vicinity soon after midnight last Sunday, had taken him to the complainants, and had arrested him for vagrancy when he was found as the man was in the act of peeping in at the window.

Mr. C. J. Prior, appearing for the defence, protested that his client had first of all been arrested and charged with a vagrancy; and that when the police had found that the charge could not be substantiated, one of disturbing the peace had been substituted. Evidence was given that Ah Lee himself lived on Balmoral Road; and that on the night of the alleged offence, he had walked with a friend. Members of the complainant family said that Ah Lee was the man who had alarmed them by peeping in at their windows last summer. The court could find no case for conviction, but was not at all satisfied with the defendant's conduct.

## LOAN COLLECTION HAS NOW ARRIVED

CANADIAN NATIONAL GALLERY PICTURES ON VIEW

Will Be Exhibited Daily From Next Month—Artistic Display From Eastern Canada

The long-looked-forward-to loan collection from the Canadian National Gallery has arrived in the city, and for the next three months art-lovers of Victoria and visitors will be able to see these pictures in the rooms of the Islands Arts and Crafts Society, Union Bank Building. No admission is being charged, and the collection will be on view daily (with the exception of the second Monday of the month) between the hours of two and six o'clock. The first showing will take place this afternoon.

The pictures, about a dozen in number, are representative of the best that the gallery at Ottawa possesses. And this means much. The National Gallery of Canada was the outcome of the founding of the Royal Canadian Academy of Arts in 1920, and the Act of 1922 incorporating the Royal Canadian Academy of Arts placed in the hands of the Canadian Government for public exhibition the diploma pictures deposited by the members of the Royal Canadian Academy on their election. From this beginning the National Gallery of Canada has grown by means of the annual grants voted by the Dominion Parliament for the purpose, and by means of gifts, and it has accumulated from these two sources a collection which numbers something in the neighborhood of four thousand pictures.

In this little loan group which has been secured by Victoria for the next three months there is one by Herbert Sidney Palmer, of a man ploughing which is an entirely new version of a national incident. In this artist's hands the homely task is more than picturesque, it is dramatic. The great swirling, angry, black clouds overhead touching a note which the picture amplifies. The tradition of the stolidity of the farm horse has been rejected, and these three animals in the plow are stirring ambitious creatures, as if they participated in their driver's anxiety to complete the task of turning over the stubble land.

Another very striking bit of color is quite a different type of subject. It is by Peter Clapham Sheppard, a native Torontonian, and a purely Canadian product as an artist also. Here is a scene as "vill" as Palmer's, only it shows boats and water instead of tolling horses and angry skies. The great copper-red bulk of a grain carrier of the Great Lakes is mirrored in the silvery and green shadows of the water, and a tug lies in the foreground. A feeling of life and action permeates the picture, which is vigorous in conception and shows fine technique. Only one other canvas in the collection gives the same sense of action. These two already mentioned illustrate industry.

Robert Ford Gagen's "Surf" is a marine subject and shows association with the English school more than other of the others, which are definitely impressions in tendency. Gagen's are thoroughly legitimate methods, depending for success entirely on the veracity of drawing, color, etc. It is a gripping bit of work, nevertheless, this picture of the tiger-pawed sea tearing at the grim and frowning rocks. The treatment of atmosphere is remarkably good.

A very charming little painting of a bridge in Brugha is the work of John Young Johnston, a native of Montreal, who spent some years in Paris. It is all very Old World, in one sense, but there is a New World influence apparent in the almost matter-of-fact unrealized way in which the artist sees the old canal with its snow-lined banks and arching bridge. Sky and sun-touched wall introduce the color which gives the happy note which is so obvious when one first looks at the picture.

Sadler Vein  
F. McGillivray's "Knowledge is represented by a big canvas painting "The Wayside Cross." It is a painting in very subdued values, and the somnolence of the subject is emphasized in every way. The humility of the old man, the humble oxen with the yoke lying heavy on their heads, the rain-soaked road, all amplify the artist's premonition of impressing the gazer with the awesome nature of the moment.

"Shadow and Sunlight" is a painting by Charles Francis Daubigny, the youngest of the Barbizon group of painters. The Ottawa Gallery is fortunate in having one of this artist's works. The painting exhibited in Victoria pictures an Oriental street, one half-flooded with sunlight, the other in deep shadow.

Fine feeling as well as fine technique shows in Fenny Grace Plim-soll's "Solitude," which, while lacking anything which could crystallize impression, conveys sense of Nature in one of her gray days seeking a lonely spot among the heather. "The Interior of the Hall Loft" is by Harry Britton. It is a very fine work and full of subdued color, the bronze of the wallmaker's face, hands and in the folds of material at his feet being a warm tone against the cold grey of the walls.

One does not need to be told that the artist who painted "The Pedlar" was a native of Holland. Hermann Ten-Kate has the clean and tidy manner of the Dutch school, eleven figures being grouped in this Dutch hall without losing their interest as entities. It is a remarkable contrast to anything else in the exhibition. In fact, his best work is a forceful example of his sentimentality as to type. Frank Carmichael's "Hilltop," which is of the latest impressionist school, exceedingly clever and decorative. Of the remaining four pictures quite the most remarkable is Leon Dabo's poem in bluish greys and silver. No picture has ever been shown here in which atmosphere has been more cleverly treated; it is both opaque and transparent, and the details of the scenery slowly become visible as objects do when the eye accustoms itself to darkness. It is pity such a poetic picture should have so commonplace a name as "Marigold's Cove."

George Russell's "Beal Cove, Grand Menan" is a busy scene, with sailboats in preparation for a voyage. There is nothing remarkable about

Alkman, appearing for the defendant, strenuously objected that the court should not admit evidence of Ah Lee's statement to Chief of Police John Fry that Ah Lee and his friend were taking a little liquor for their stomach's sake with their supper. Mr. Alkman refused to call evidence for the defence. He said that there was growing up to be too much of this practice by the police of trying to get convictions by means of alleged confessions. The court held

that a case for conviction had been made out. The fine was paid under protest, with an intimation that there would probably be an appeal.

Permission was granted Mrs. C. A. Consequently mothers who have been accustomed to attend the clinic at the shelter, are requested to attend at the Cloverdale school at 3 o'clock this afternoon, and every third Friday at the same time until further notice.  
Mrs. Lucas delivered an interesting address to the association, relating many details of the work carried on at the health centre in connection with the well baby movement. She distributed specially prepared literature on the subject to the members present.

Died After Suffice  
NUTT, Mont., Nov. 14.—James F. Melvin, 42, editor of the Salmon, Idaho, Recorder, died suddenly in his office following a struggle with a committee of ex-service men who visited him after he had refused to join the Red Cross. In the struggle Melvin's coat was torn but no blows were struck. He escaped from the committee and ran to his office, where he expired after several hours' agony. A coroner's jury yesterday found that his death had been caused by "suffocation and over-exertion."

## NEW GARAGE WILL BE ERECTED HERE

Loney Bros. Are Building New Premises on Yates and Vancouver Streets Corner

Loney Bros. are building a new one-story garage at the corner of Vancouver and Yates Streets, to cost about \$1,000, it was announced yesterday at the City Hall. The contractors are building the garage for themselves on property purchased by them some time ago.

An early start on the Bank of Nova Scotia premises at the corner of Douglas and Yates Streets, is expected by Building Inspector J. Barf, although no definite announcement has been made yet as to the management's intentions. Excavation was completed several weeks ago.

Mr. William Bensen, of the Bayward Building, is architect for a new \$7,500 building to be erected on View Street, above Douglas Street, for C. J. Carey, tea and coffee merchant. The building will stand just opposite the new quarters now occupied by the Royal Dairy. Knott & Jones are contractors for the job. Brick and sandstone will be the materials used in construction.

The new Fletcher building on Douglas Street is now nearing completion, and will be open for the Christmas trade. The Chamber of Commerce Building, which was destroyed by fire last May, is being occupied this week by ground floor tenants, and the Chamber of Commerce will open its quarters upstairs at the end of this month or early in December.

## NEW RESOLUTION ON ORIENTAL QUESTION

Amendment of Mr. Bowser Ruled Out of Order—(Capt. Ian Mackenzie Interjects Motion)

In the Legislature yesterday afternoon, Mr. Speaker Pauline agreed with the view expressed by Premier Oliver on Monday that the amendment presented by Mr. W. J. Bowser, K.C., opposition leader, to the resolution submitted by the Minister of Mines calling upon Ottawa to enact legislation to exclude the Oriental, was well founded.

In a lengthy opinion, Mr. Speaker held that Mr. Bowser's amendment made no material change to the minister's resolution and that the minister's resolution was well founded.

Immediately upon the delivery of the opinion by Mr. Speaker, there was filed the following resolution by Mr. Ian Mackenzie:

"Whereas, it is set out under Section 122 of the British North America Act that 'the Parliament and Government of Canada shall have all powers necessary or proper for performing the obligations of Canada or of any province thereof, as part of the British Empire, towards foreign countries, arising under treaties between the Empire and such foreign countries';

"And whereas, the treaty making power of Canada, in dealing with foreign countries, is thus limited to the 'performing of obligations' undertaken by the Imperial Parliament, should Canada, as a self governing dominion, consent to become a party to the same;

"And whereas a serious situation has developed in the Province of British Columbia because of the rapidly growing numerical and economic power of its Asiatic population;

"And whereas it is imperative for the protection of the citizens of British Columbia that strong measures be adopted designed to prevent Asiatic from acquiring further rights in this Province, the active exercise of which would give them an alarming hold on agriculture, fishing, lumbering, mining and other Provincial industrial interests;

"And whereas the limitation of Provincial legislative authority under the British North America Act precludes the Provincial Legislature from enacting such legislation as is necessary to effectively deal with the situation defined;

"And whereas it is essential, if the Caucasian population of the Province of British Columbia is to be permitted to work out, unfettered, the high ideals of Anglo-Saxon civilization, both in the development of the country's natural resources and in the application of those ideals to proper standards of living;

"Therefore, be it resolved, that the Government of the Dominion of Canada be petitioned to grant its assent and accord its active assistance to the obtaining of amendments to the British North America Act, giving the Province of British Columbia, at present most affected, and the other provinces of Canada, the power to make laws prohibiting Asiatics from acquiring proprietary interest, in any form whatsoever, in agricultural lands in British Columbia, in the timber lands of British Columbia, in the mineral lands of British Columbia, or in the fishing or other industrial enterprises carried on within the Province of British Columbia, from obtaining employment in any of the above mentioned industries;

"Be it further resolved, that the Government of the Dominion of Canada be respectfully requested to grant adherence on the part of Canada to no treaty or binding international obligation in any form whatsoever, having the effect of limiting the authority of Provincial Legislatures, as set out by the terms of this resolution.

"Be it further resolved that copies of this resolution be forwarded to the Provincial Secretaries of the various provinces of the Dominion of Canada; and be it further resolved that a humble address be presented to His Honor the Lieutenant-Governor, praying that a copy of the resolution heretofore set out be transmitted to the honorable the Secretary of State or other proper official at Ottawa, for presentation to His Excellency, the Governor-General-in-Council."

## VETERANS OBJECT TO APPOINTMENT

Express Disaffection of Government Showing Mr. Mellor as Sergeant-at-Arms

The Army and Navy Veterans last night at its monthly meeting adopted the following resolution:

"That a strong protest be forwarded to the Premier of British Columbia on the appointment of Mr. Fred Mellor, a merchant in the city, to the position of sergeant-at-arms of the Provincial Legislature (a man who did not serve overseas), when there are many disabled veterans who could have filled the post and to whom the remuneration would have benefited, especially at this time."

The president announced that nominations for officers for the coming year must be handed in by December 1, and that the nominations will be read out at the general monthly meeting to be held on December 14. Secretary Money was appointed as an alternate delegate to the Community Chest committee.

It was resolved that a vote of thanks be passed to the Boys' Naval Brigade Band and to the Juvonia Scots Pipe Band for turning out on Saturday last to assist in the parade, their voluntary services on the occasion being greatly appreciated.

At the next general monthly meeting a visit from the Dominion president, Major M. J. Crehan, is anticipated.

### TEE, FAIRWAY, GREEN, CHICK

**Handicapping Championships**

Golf equipment is being so improved and perfected that the question now arises whether golf championships are decided more by the man than by the ball.

Due to this peculiar development in the game we may soon behold the handicapped golf tournament. I understand that golf association officials are thinking seriously of that at this time.

In all other sports the handicap applies. The nearest parallel to golf that I can think of at the moment is the U.S. National Trap Shooting handicap. This suggests itself perhaps because golf, with our modern equipment, has become almost as much a shooting proposition as is the case with the trap men and their shotguns, with targets alive or of clay according to state laws. In trap shooting the shooter takes a position forward or backward according to his handicap. Jim Powell, Iowa newspaper publisher, is a good case in point. He is tiny in size but mighty with his gun, so at the shoots he has to stand so far back you would hardly know he was there at all if his scoring didn't talk so forcibly.

As it is in golf now all men are free and equal at the tee, but there is a growing idea that the game will fare best if all players are made equal at the second shot, since it is generally assumed that the greater skill in playing applies itself between the second shot, and then at the green. This sort of handicap would be different from anything in sport and at the same time it would lend itself splendidly to golf.

No one contends that the long edge on his way to the green has any way to the green. It is the short game that wins, after all. Now let us assume that a long

driver is matched with a player who is short from the tee but very accurate to and around the green. This will very likely turn out to be a one-sided match greatly in favor of the accurate shooter for anyone. But in time and with experience the player who takes great distance from the tee improves his short game with practice until he is a good match in that department for anyone. Then his long drives give him an advantage which might well be handicapped for the best interests of the game. Such handicapping would serve other purposes. It would, for instance, keep the short driver from striving for long distance from the tee, and thus free him from that hazard of playing. It takes many years for a short driver to school himself to seeing his opponent always from 50 to 75 yards ahead of him from the tee. I know because I have always been short from the tee.

The constantly improved golf ball enters importantly into this. The ball gets faster and longer with each passing season. It attains to much more distance the longer hole means nothing but a drive, a chip and a putt or two, with the same robbed of one of the most important shots—the approach. There is a lot of difference between the approach and a chip. The second shot, with the ball 150 to 200 yards from the green, offers great opportunity for skillful playing. With this distance cut in half by a still speedier ball, the question of handicapping the second shot is reflected in its full importance. Handicapping the golf championship is a matter that calls for some serious attention right now. I would like to have the suggestions of sports editors, sports officials and golfers everywhere. Some one may solve this interesting problem.

As it is in golf now all men are free and equal at the tee, but there is a growing idea that the game will fare best if all players are made equal at the second shot, since it is generally assumed that the greater skill in playing applies itself between the second shot, and then at the green. This sort of handicap would be different from anything in sport and at the same time it would lend itself splendidly to golf.

Former Balkline Billiard Champion Shows Brilliant Form in Second Match of New York Tournament

**BELGIAN CUE EXPERT WINS FROM GERMAN**

Horemans Makes New Record High Run for Competition With 244—Schaefer Easily Outpoints Conti

NEW YORK, Nov. 14.—Willie Hoppé won his second match in the international 14.3 balkline billiard championship tournament. His victory of 139 to 132 over Walker Cochran was built up on two massive runs of 193 and 189. The third best run was 63. The average of the former champion was 55.4. Cochran fell to an average of 30.4. Throughout his many runs, Hoppé chiefly favored rolling caroms of a somewhat free-handed variety. His stroke appeared unsuited to sustained championship play, but he brilliantly played caroms which skill at cushion and position made possible.

Edmond Horemans beat Enrich Hagenaicher, 500 to 351.

Horemans hung up a new record high run of 244 for the tournament. He had runs of 143 and 89, while his opponent had runs of 130, 75 and 94. Horemans finished his string with an average of 38.10-14. The German's average was 21.7-14.

Schaefer Beats Conti

Jack Schaefer maintained his position as an undefeated contender last night. He outplayed Roger Conti, the Frenchman, 500 to 351 points. That was not all. Schaefer equaled the average of 55.4 that Willie Hoppé set last night as the record average of the present tournament. He

### Fans Will Pull for Aristocrats' Squad At Arena Tonight

Eddie Oatman, Local Skipper, Will Try Hard to Lead His Teammates to Victory—Vancouver Maroons Expect Stiff Opposition and Are Ready to Travel Fast

### GAME WILL BE CONTESTED UNDER NEW HOCKEY RULES

LOCAL hockey fans will be pulling strong tonight for the Aristocrats, who will entertain the Vancouver Maroons in the first match of the season on Victoria ice. The contest will begin at 8:30 o'clock, when Mickey Lon will toot his whistle, and it is expected that a big crowd of followers of the puck-chasing game will be on hand to see the rival squads mix. Much speculation over the outcome of the tussle has been heard, and the match should be a good battle.

Later Patrick's band of warriors arrived back in town yesterday from Seattle, where they opposed the Metropolitans on Wednesday night. The local manager stated that he had no alibi to offer for the reverse which the Victoria Ice dogs suffered, pointing out that the players worked hard while on the pond and did their best to trounce the home squad. But Lady Luck decreed otherwise.

The Aristocrats will enter tonight's fray at the Willows Arena in good shape for the gruelling struggle with the Terminus City representatives. The local men have now played in one game this year, and know each other's style better than before. The fans are anxious to witness the opening game of the season and to see how the Victoria team will handle their visitors.

### Will Have "Visitors"

It is customary when visitors are expected that everything that will make towards giving them a good time is arranged. No doubt, however, the Aristocrats will devote this time-worn rule this evening by making the Maroons, under the leadership of Lloyd Cook, keep stopping over the whole route. Vancouver realizes that it will have to travel fast to trounce the local men on their own rink, and the Victoria team is likely today with thoughts of victory.

Fans look for the Aristocrats, under the captaincy of Eddie Oatman, to give a good account of themselves in the first hockey fixture of the season here. In the various workouts that the team had during the training period, the local players have displayed good form and feel confident of coming out of the contest on the heavy end of the score.

The local team will take the ice with Fowler in the cage and the Loughlin boys, Clem and Will, on the benches. Fredrickson, the former star captain of the Falcons, famous hockey ached, will play centre, and Eddie Oatman, the popular skipper of the crew, and Harry Mackenzie, Nixie, Woodson, Tolmie, Colman, Kinch and Herman.

This will be the first match to be played in the knockout series for the Cowichan rugby trophy. Kickoff will be at 8:45, and Davies will referee.

also set up a new record high run for this competition with a massive compilation of 193. This run had been immediately preceded by 125. The champion had another run of 94. All of his play was rapid, and he favored the short rails throughout.

Conti began poorly. He was not in the same stride as a year ago when he defeated Schaefer in the tournament at Chicago. The Frenchman later strengthened his ball to ball billiards to finish with an average of 31.3, and high runs of 197, 87 and 45.

The Frenchman held the crowd spellbound by some sensational billiard shots. His accuracy was uncanny. The run tallied 197, and contained a racing follow and a close massé which represented the wonder shots of the season. Schaefer came to the table to tick off his closing cluster of 20 by close billiards that won the match.

### Milburn's Laxa-Liver Pills The Great Liver Regulators

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons. Therefore when the liver is inactive and failing to secrete bile in sufficient quantity constipation and other liver troubles soon follow.

Mrs. H. D. Hutchinson, Peterborough, Ont., writes:—"I have been using your Milburn's Laxa-Liver Pills and they have done me a lot of good. My liver bothered me a great deal. I was drowsy and tired all the time and didn't feel like doing anything, let alone my housework. I tried everything, but your pills seemed to do the work for better than anything I had ever taken."

## FAMILIAR NAMES IN COLUMN OF DEFEATED

Mr. Churchill Lenses to Only Prohibitionists—Mr. Henderson and Sir Hamar Greenwood Out

(Copyright in U.S. by New York Herald)  
LONDON, Nov. 16.—British voters apparently refused to be influenced by tradition when they cast their ballots yesterday, with the result that many apparently firmly established political figures were cast into the discard. Perhaps the most amazing development was the defeat of Right Hon. Winston Churchill, formerly Colonial Secretary, in Dundee, a constituency which he has held for many years. Not only was he defeated by the only prohibition candidate who sought election, E. Boryn-gour, but he ran fourth in the count.

**Brilliant Career**  
After a long and brilliant career as a soldier, Mr. Churchill entered political life in 1899, and has been a prominent figure in British politics for more than ten years. This, together with his able record as Minister of Munitions and Secretary of State for War, seemed to ensure his place as a permanent figure.

**Temporary Setback**  
But Mr. Winston Churchill is young—he was born in 1874, so yesterday's result is probably only a temporary setback. Little less surprising was the defeat of Mr. Arthur Henderson, the Labor leader, in the face of heavy Labor gains.

**Victory for Labor**  
Labor, in turn, defeated Sir Donald MacLean, Asquith's principal supporter, in Peebles, where the Labor candidate, J. Westwood, got 6,894 votes, the Conservative 5,993, and MacLean 5,877.

**No Surprise**  
Also there is the case of Sir Arthur Griffith Boscawen, Minister of Health in the Bonar Law cabinet, and Minister of Agriculture under Lloyd George. He was unseated at Taunton by P. H. Simpson, an Asquith Liberal.

The defeat of Edwin S. Montagu, former Secretary of State for India in the Lloyd George cabinet, was not so much of a surprise following the difficulties he got into last March by authorizing the publication of dispatches from the Government of

India, calling for the revision of the Treaty of Sevres, an act which caused Lloyd George to demand his resignation and caused him to be rebuked also by Lord Curzon and parliament.

**Canadian Losses**  
Another figure long prominent in British politics who went down to defeat yesterday is that of Sir Hamar Greenwood, former Chief Secretary for Ireland, who was beaten by the Conservatives in Sunderland. Sir Hamar used a strong hand in Ireland, and in some of his public utterances proved himself more of a soldier than a diplomat, which did not serve to increase his popularity.

Another notable loser was Colonel Leslie Wilson, chief Conservative whip and Secretary to the Treasury in the Bonar Law cabinet.

## DELAYS BILL A WEEK

(Continued from Page 1)

ation and report. He named the following committee: Mrs. Ralph Smith, and Messrs. Torsion, Duncan, Guthrie, McKee, Pearson and Paterson.

Mr. F. W. Anderson, Liberal member for Kamloops, took the point in order that South Vancouver's member must first give two days' notice of his motion for a select committee.

**Speaker Acted Too Soon**  
Mr. Speaker Pauline held that the point was well taken, but Mr. Neelands referred to the rules to show that once a bill was introduced in the House no such objection could be taken.

"I am afraid my ruling was given too soon," replied Mr. Speaker, after consulting the rules.

"May I suggest that you read three or four more paragraphs beyond, so that, perhaps, we will not see another reversal?" interjected Melior Burke, amid laughter.

Mr. Neelands stated his object in seeking to have the bill referred to a select committee was to permit all parties interested to present their arguments.

Mr. Anderson thereupon moved the adjournment of the debate.

**Laid Over for Week**  
The bill, being a private measure, will therefore not come before the House until next Thursday, which will be the next opportunity for private bills, unless the Government

may see fit to allow it to be brought up before that time and thus take precedence over Government measures.

Rumors about the Legislative Buildings yesterday had it that the original plan of those opposed to the measure was to have a member of the House move a six month's hold of the bill. This plan has been changed, it was stated.

## OPPOSE INTERVENTION ON RELIGIOUS MATTER

Indian Mohammedans Think Great Britain Should Not Interfere With Angora Government

LAUSANNE, Nov. 16.—Great Britain has nothing to do with the caliphate, in the opinion of the Indian Mohammedans, and should not interfere with the Angora Government in its handling of religious matters. This contention is set forth in a telegram forwarded to Mr. Andrew Bonar Law, the British Premier, by the committee of the caliphate of Bombay, and made public here tonight by Djalil Edine Arif Bey, representative of the Angora Government in Rome.

**Demand Minister's Release**  
The Egyptian Association, which claims to represent the voice of Egypt, today adopted resolutions demanding the release of Said Sagouli, former Egyptian Minister of Justice, who was arrested last year for nationalist activities and deported to Cayron, and the giving of permission to him to come to Lausanne and head the real delegation, which consists of Sagouli's colleagues and the nationalist committee led by Hissab Pasha.

Dr. M. A. Dardari, president of the association, told the correspondent that the members of the association would adopt every means within the law to prevent the official Cairo committee reaching Lausanne or participating in the conference.

**Controlled by England**  
"Their every act will be controlled by England," said Dr. Dardari. "These official delegates who have not yet left Cairo probably because of fear of the wrath of Egyptian abroad, will of course be the creature of England at Lausanne."

## CANNOT HAVE NAPIER REPORT

Continued from Page 1

alleged a lack of logic on the part of his political opponents. His speech was short but pointed, and the constant objection from the Liberal side indicated that he was pressing very sorely upon the other side.

**Too Much Mystery**  
Taking the view that there was an element of mystery to the report submitted by Col. Ross Napier to the Attorney-General, Mr. Pooley told the House that he had understood at the opening of the present session that the Government was willing to court the "loudest" agitation into the liquor situation. Colonel Napier, he said, was a public servant and had been sent to Vancouver as one, not as a Scotland Yard or a Burns detective. He certainly thought that the report should be laid before the Public Accounts Committee.

The Equilibrium member informed the House that it was unnecessary for the members to know where he stood on the liquor question. He had always been an anti-prohibitionist, but he contended that any covering up of the work of the board would be playing into the hands of the Prohibition Party and would eventually lead to a "house dry" law being enacted.

**Attorney-General's Views**  
Attorney-General Manson stated that he had but little to add to his remarks on the subject made a few days ago, when the Public Accounts Committee reported its first report. There was no reason, he stated, for disclosing the report submitted by Col. Napier, which would, he contended, nullify most of the work accomplished by that official. The Public Accounts Committee was not intended to sit as a court of appeal on the decisions of the Attorney-General. It was not perfect, he admitted, but in so far as any reports being received on the actions of officials, the Government is doing its best. Hon. Mr. Manson asked the support of private members, especially when they are back in their respective ridings. The act was a new one, and probably mistakes had been made,

but he could safely affirm that such would be the case in the future.

**Leader of Opposition's Threats**  
Mr. W. J. Bowser, Leader of the Opposition, in speaking in support of the Pooley motion, mentioned the Attorney-General's threats to make an investigation of the affairs of the Liquor Board. I received two, or perhaps, three letters from him on that matter. There is no report such as can properly be termed a report," said the Premier, who took a point of order to the effect that the motion presented to the House did not call for the production of any report. He quoted extensively from authorities to show that so-called secret service accounts ought not to be divulged. He said the Government had no objection to Col. Napier going before the committee and testifying in respect of accounts, but beyond that he was not prepared to go.

The Premier, therefore, moved, seconded by Hon. William Sloan, Minister of Mines, an amendment to Mr. Pooley's motion, to the effect that the Public Accounts Committee be instructed that it possessed all necessary powers to procure attendance of any witness whose evidence was necessary to any inquiry into any matter referred to it by the House, but it had no power to inquire into matters not so referred; further that no report of Col. Napier had been referred to the committee, nor the contents of any such report before the committee, and it cannot investigate any report or matter not so referred to it.

Mr. G. S. Hanes (North Vancouver) moved the adjournment of the debate.

**SEEK HIGHER AWARDS**  
Asking that the Workmen's Compensation Act be amended so as to provide for higher allowances for injured workmen and their dependents, a delegation waited upon the Government yesterday morning from the Brotherhood of Locomotive Engineers, Conductors, Firemen, Enginemen and Trainmen. They asked that the burial allowance be raised from \$75 to \$150; that increases be given, in general amounting to about fifteen per cent.

They also asked that provision be made for the payment of a lump sum of \$100 to the widow or person acting as foster-mother in addition to other allowances. They also asked that in the event of the death of an un-

married workman or widow with-out dependents, a sum of \$1,000 be collected from the employers and devoted to the work of a rehabilitation fund for the education of permanently or partially disabled workmen who would not otherwise receive compensation.

The delegation asked that the age limit of children receiving assistance be raised from sixteen to eighteen. They urged the Government to bring in legislation making it impossible for municipalities to levy a poll tax or road tax on anyone who can present tax receipts for the current year from some other municipality and that no dual income tax be levied by Province or municipalities alike.

They also asked that the Government furnish free public school supplies, or failing this to provide for uniformity of text books and print and issue them to the public at cost. They also want stricter inspection of sanitary conditions in railway camps and suggest that the compulsory school age of children be raised from fifteen to sixteen years. The Government promised to consider these representations on amending the Workmen's Compensation Act.

Nurse Recommended Use of Lydia E. Pinkham's Vegetable Compound

Bothwell, Ontario.—"I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I recommend your medicine to my friends, and you may use my testimony."

D. M. Wenz, R. R. No. 3, Bothwell, Ontario.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ailments is because it contains the true strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Lydia E. Pinkham's Private Testimonial upon "Allments Pottar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass.

**Premier's Explanation**  
I cannot but admire the educational campaign being conducted by my friend," said Premier Oliver, who said that after twenty years of experience in the House, the opposition leader was not yet acquainted with the simplest rules of the Legislature. He asserted that neither the Government nor the members of the House had objected to Col. Napier being called before the Public Accounts Committee in respect of the accounts of the Liquor Board, but, he pointed out, a select committee

could not do so. He pointed out that the Public Accounts Committee was not intended to sit as a court of appeal on the decisions of the Attorney-General. It was not perfect, he admitted, but in so far as any reports being received on the actions of officials, the Government is doing its best. Hon. ### RESIDENTS CONSIDER VARIOUS QUESTIONS

**Sidney Organization Objects to Local  
Claims Being Shipped in Raw  
State—Extend Closed Season**

SIDNEY, Nov. 15.—The Sidney Board of Trade held its monthly meeting last evening in the Wesley Hall. In the absence of the president and vice-president, Mr. J. T. Taylor occupied the chair.

The light committee, Mr. G. Cochrane and Mr. T. Griffiths, reported having collected \$35 for the street lighting, and are planning to try and extend the lights.

The road committee moved a vote of thanks to the Victoria City Council, the Chamber of Commerce, the Victoria Automobile Association, the Island Publicity Bureau for their help in trying to get the remainder of the road paved into Sidney. The same committee is appointed to interview the C.P.R. officials during November regarding the ferry coming into Sidney.

The health committee will take up the question of the road ditches and the disposal of garbage.

The question of exporting claims in the raw state was taken up and the

board was in favor of stopping the exporting of them in that condition, and also was in favor of having a longer close season for claims. It was felt that the season should be closed from May 31 to September 30.

### CREW OF CAPETOWN ROYALLY ENTERTAINED

**Jolly Tars Welcomed to Nanaimo by  
Mayor Busby and Given  
Smokers**

NANAIMO, Nov. 16.—Members of the crew of H. M. E. Capetown, now in port, were entertained at a smoker last evening under the auspices of the G. W. V. A. Messrs. Ward, Tulip, P. O. Dunphy, Jimmy Runge and C. P. O. "Lilley" Fair, members of the crew of the cruiser, contributed to the concert programme. The other artists included Joseph English, J. Crab, C. E. J. Millens, W. Lightfoot, Cooper and Goodwin.

During the evening President Bell suggested that another line of tape should be put on the "dukers" of the sailors in commemoration of the services rendered during the late war, as these services were at least as good as the services rendered to the Empire during Trafalgar, the Nile and Copenhagen, for each of which a braid of tape is worn on the collar or "duke" of the lower deck.

His Worship Mayor Busby, as chairman of the evening, made an appropriate speech, in which he expressed the hope that the boys on the ship would not forget Nanaimo, no matter where they went. Petty Officer Halloran expressed the thanks of the crew of the Capetown, and wished the citizens of Nanaimo, and in particular the G. W. V. A., the best of luck.

A most enjoyable evening was concluded with the singing of "For He's a Jolly Good Fellow" in honor of the Mayor, "Auld Lang Syne" and the National Anthem.

This evening the visitors will be entertained at a dance in the Odd Fellows' Hall under the auspices of the Veterans, to which the public is invited.

### EVENTS AT NANAIMO

NANAIMO, Nov. 15.—At the Board of Trade meeting last night a communication was received stating that a new ferry from Bellingham to Anacortes, connecting with the present ferry from Anacortes to Sidney, had been opened, and asked that delegates from Nanaimo be appointed to attend a meeting at the Vancouver Hotel on November 24. Mr. J. W. Coburn was appointed to head a delegation of three, he to appoint the other two. Replying to a communication from the Victoria Chamber of Commerce, the board went on record as having no complaint to make regarding the operation of the existing system of pilots.

The funeral of the late George North, whose death occurred Saturday last, took place yesterday afternoon from the family residence, Macleary Street. The Rev. H. Lister conducted the service at the home and at the Nanaimo cemetery. Ashlar Lodge, A. F. and A. M., of which deceased was a member, attended in a body, and at the conclusion of the regular service at the grave Past Master Galloway conducted the impressive Masonic burial ritual. The pallbearers were Messrs. H. McRae, T. Jones, C. Wright, R. Malone, H. Sheldon and J. Rowen.

Under the auspices of the G. W. V. A. and assisted by the I. O. G. E., a most enjoyable ball was given last evening in the Odd Fellows' Hall to the officers of H. M. S. Capetown and to a large number of invited guests. The hall was filled with dancers, and the decorations, which had been left in place from the Armistice ball, added materially to the attractiveness of the scene. A dainty supper was served during the evening.

**Every Dollar Comes Back With Substantial Dividends**

Have you ever heard of an absolutely safe investment, purchased by instalments, which does not require the payments to be completed if you become disabled, but, instead, pays you a monthly income as long as you live?

—which cancels all further payments in event of death and pays immediately the full amount you had set out to save?

—or, at the end of 20 years, absolutely guarantees to return to you every dollar you have deposited in annual premiums, with substantial dividends?

**The Capital Return Policy**

is a new departure in life insurance policies which the Canada Life introduced to the public. It has carried out the above program for a great number of policyholders who wisely took advantage of it.

**This Policy Gives You—**

1. Immediate Life Insurance protection for your home.
2. Cash values, available in emergencies, which, with the substantial dividends added at stated intervals, make your policy a valuable business asset.
3. At the end of 20 years you can draw out all you have paid in, along with dividends which have been compounding at interest.

Or, you can take a Special Cash Guarantee, along with the accumulated dividends, and continue the policy (fully paid for) earning dividends as long as you live.

Or, this Special Cash Guarantee may be applied to increase the amount of your policy—for example, a \$5,000 policy would be raised to more than \$7,500.

**And in addition—**

Suppose some day you should become totally and permanently disabled through accident or illness. Immediately all further deposits would cease, and you would receive \$50.00 a month as long as you live—and the \$5,000 would be paid in full at your death. (This feature is added for a small extra payment yearly, which is not returnable with the regular deposits.)

## TELLING WEATHER BY KITE BALLOONS

MR. F. NAPIER DENISON WILL  
EXPLAIN SYSTEM

Will Address Meeting of Astronomical  
Society, Giving Interesting Re-  
sults of Research Work

The forecasting of the weather has hitherto been based upon data derived solely upon the surface of the earth. From statistics gathered by telegraph at definite periods of the day as to the temperatures, barometric pressures and other factors, a plot can be made of the conditions prevailing upon the surface of practically the whole American continent. The path of storm centres can thus be followed and their arrival at any specified locality can be fairly accurately gauged. It is on record by the superintendent of the Meteorological Service for Canada, Sir Frederick Stupart, that the percentage of verification of forecasts is about eighty-five, and of storm warnings about ninety-five.

But even this good showing is not considered satisfactory, and methods of improvement have for some time been sought. One of the most promising of such methods is a study of the currents of the upper air by means of kites and balloons. In some cases the balloons are equipped with self-recording instruments; in other cases they are released without any such instruments and their paths followed by means of a telescope.

These kite balloons, as the last mentioned are called, have been used by Mr. F. Napier Denison, superintendent of the local meteorological observatory, the past summer in a systematic study of the currents of the upper air. He is to present some of the interesting results of this research work at a meeting of the Royal Astronomical Society on Tuesday evening next in the Girls' Central School. Quite a decided connection has been found to exist between weather conditions on the ground and the vagaries of the upper currents, and it is expected a large number will be present to hear of his results at first hand.

# Dominion Rubbers

right through the winter

DOMINION Rubbers mean health protection. They mean freedom from colds, sore throats and tonsillitis, caused by getting the feet wet or sitting all day in damp shoes.

Don't limit the children to a single pair of rubbers each.

You'll find it a real economy to have a pair of rubbers for each pair of shoes, because both shoes and rubbers will wear longer.

Try this plan yourself. DOMINION Rubbers come in styles, shapes and sizes to fit every shoe for men, women and children.

Don't ask for "a pair of rubbers"—insist on getting DOMINION rubbers, the perfect fitting, comfortable, long-wearing rubbers.
